PART I

SPECIFIC REQUIREMENTS OF PROPOSED CONTRACT

1.0 INTRODUCTION

The Maryland Health Care Commission (“Commission”) is a 15 member independent commission located within the Department of Health and Mental Hygiene. The Commission is soliciting proposals from qualified offerors to provide expertise in the design, build, and maintenance of an information-only web portal that allows small group employers to compare on a 24/7 basis the benefit details and costs for the health plans that are offered by Maryland licensed insurers, non-profit health service plans, and Health Maintenance Organizations.

The Commission intends to make **a single award** as a result of this RFP.

All communications regarding this RFP are to be made only by the Procurement Officer (see Key Information Summary Sheet). Information communicated by the Procurement Officer shall constitute the official position of DHMH.

2.0 BACKGROUND

In 1993, the Maryland General Assembly passed legislation creating the Comprehensive Standard Health Benefit Plan (CSHBP) which is Maryland’s insurance program for small employers with two to fifty employees. The CSHBP by design is a very prescriptive program with a cost ceiling, specified cost sharing, and a comprehensive core of services. Over the subsequent years, the Commission added a number of mandated services. Because there has been a decline in the number of employers and employees participating in the CSHBP, and because the premiums have been increasing faster than wages, the Commission contracted with its’ actuary to analyze a series of options for potential reform of the CSHBP resulting in a report to the legislature in December, 2007. The report was the basis for SB637 which was introduced and passed during the 2009 legislative session. This legislation requires the Commission to develop a web-based capability that allows purchasers to compare on a 24/7 basis benefit details and costs for health plans offered by licensed insurers, non-profit health services plans, and HMOs participating in the small group market.

3.0 PURPOSE

The purpose of this solicitation is to contract with a Offeror who can successfully deliver an information only web portal that will allow small group purchasers to compare on a 24/7 basis, benefit details and cost information for health plans offered by licensed insurers, non-profit health services plans, and HMOs, and integrates the Maryland Health Insurance Partnership web page and other general small group market (SGM) insurance information resident on the MHCC website (accessed by going to <http://mhcc.maryland.gov/> and selecting “small employer/employees”). This RFP is designed to provide interested offerors with sufficient basic information to submit a proposal meeting stated requirements, but is not intended to limit a proposal’s content or exclude any relevant or essential data. If there is specific functionality that the offeror feels has not been specified in Section 4.0 or 5.0 of this RFP that would compromise the efficiency and effectiveness

of the end product or would enhance the end product, such functionality may be addressed in the submitted proposal but must be identified in bold as a value added service and identified and separately priced from the overall budget in the cost of the proposal.

4.0 SERVICES TO BE PERFORMED

4.1. Work Plan

The work plan shall contain a project management flow chart using Microsoft Project showing all major steps in the design and development of Virtual Compare and meeting all the deliverable requirements as defined in Section 5.0 of this RFP, with specific tasks and dates for completion of each step. In addition, the work plan shall identify all inputs/resources needed for the project. Each of the major steps shall be broken into specific tasks along with the name(s) and position title(s) of each staff member responsible for each task and the number of hours assigned for each individual to each task. The contractor shall meet with the MHCC's Contract Monitor and Project Manager each week until the work plan is completed and approved. In addition to the work plan, complete the worksheet in Appendix C as part of the response to the RFP.

Due 30 days after contract execution. If the initial comprehensive work plan is not accepted by the MHCC, the contractor will be given 5 business days to meet with MHCC staff and submit a revised work plan.

Note: Delays in receiving MHCC approval of the work plan will not alter the deliverable dates specified in this RFP. No payment for any deliverable can be made without an approved work plan.

4.2 Executed Agreements

In order to build the web portal, executed agreements must be in place with the Maryland licensed insurers, non-profit health service plans and HMOs ("carriers") participating in the small group market that allow the selected offeror to receive and display on their web portal benefit details, plan limitations, cost sharing levels, and premiums for the base CSHBP, the two most frequently purchased health plans with riders, and any additional approved health plans that carriers would like to be posted at no cost to the MHCC. Because the agreement is between the selected offeror and carriers, both parties are responsible to determine the content of the agreement.

The executed agreement between the carrier and the contractor must address all costs incurred in acquiring and producing the required information for posting. The agreement must contain a clause acknowledging that any information produced by the health plan for posting on the web portal must be reviewed and approved by the MHCC prior to posting, and must be consistent with the carrier's filings with the Maryland Insurance Administration. Failure to execute a timely agreement with CareFirst, United HealthCare, Aetna, Kaiser, and Coventry suspends further work on the project unless additional work is approved by the MHCC.

Due 45 days after contract execution.

4.3. Site Design Options

The contractor will provide for MHCC consideration, up to three options for graphic design, structure and functionality of the web portal, including the solution for integrating the Partnership web page and Small Employer Information web page materials.

- The web portal must be easy to understand and navigate, and the display of information must be straightforward and abbreviated. The contractor may want to consider the design recommendations by Steve Krug in his book, **Don't Make Me Think.**
- The web portal must include a broker/agent contact solution that will assist employers in searching for information on broker/agent(s) by zip code/by-carrier, and by carrier/by zip code.
- The broker/agent listing on the web portal is voluntary, but in order to be listed, the broker/agent will at a minimum be required to enter their Maryland Insurance Producer license number, which will give them access to a tutorial provided by the MHCC addressing the small group market and the Partnership.
- At the conclusion of the tutorial, the broker/agent shall complete the following required fields in addition to their license number: their name, agency name, business address, telephone number, email address, and carrier name(s) for which they are authorized to sell.
- The Broker/agent contact solution must allow for updates of the contact information by the broker/agent and the tutorial by MHCC.
- A disclaimer must appear on the broker/agent contact solution that e posted information does not infer MHCC' association with or preference for broker/agents who voluntarily list on the web portal.

The website content to be incorporated into the **VIRTUAL COMPARE®** portal will be as defined by the MHCC with supporting information provided through data use agreements between the contractor and the carriers, and from information on the MHCC website.

Due 30 days after approval of the Work Plan

4.3.1 Functional Requirements: The MHCC welcomes recommendations for improved functionality or features that will increase the web experience for the users; however, the following are minimum functional features to guide the design effort:

- Understandability of the site by the small business owners is the highest priority. The design should maximize usability and accessibility by organizing information into discrete parts that are one web page or less in length as well as providing layers of information with further detail.
- Where definitions are needed, an automatic pop-up type display is preferred.
- Inclusion of tools that assist users to search by maximum premium, plan design, and carrier

- Capability to support the simultaneous comparison of benefit details, plan limitations, cost sharing and premiums for a minimum of three health plans based on the illustrative employer groups as defined by the MHCC.
- Use of variable font: size, type, color, and contrasting background so as to be highly readable for individuals with diminished visual capacity in keeping with the requirements of Section 508 of the federal Rehabilitation Act, while maintaining a professional appearance to the site
- Capability for the user to download and print viewed pages.
- Presentation of information for visitors in a manner that:
 - Maximizes the understanding of the content by a non-technical audience,
 - Minimizes the need for technical knowledge by limiting use of acronyms and technical terms,
 - Explains any technical terms and acronyms that cannot be eliminated, preferably by pop-up if incorporated into text.
 - Provides a function for the user to access additional expanded information.

4.3.2 Minimum health plan information to be included on the web portal for each health plan:

- Corporate logo
- Name of the carrier
- Name of the health plan (i.e., plan type or delivery system)
- Deductibles
- Coinsurance
- Copayments
- Provider network restrictions
- Enrollee service cost sharing and/or limitations for:
 - Office visits
 - Preventive care
 - Emergency room services
 - Hospitalizations
- Premium information for up to eight employer group average age compositions, for four geographic regions if applicable for:
 - CSHBP base plan without riders
 - Employee only
 - Employee plus spouse
 - Employee plus child(ren)
 - Family
 - The carrier's two most frequently sold health plans/benefit packages with riders in the previous calendar year
 - Employee only
 - Employee plus spouse
 - Employee plus child(ren)
 - Family
 - Up to two additional health plans/benefit packages that the carrier would like to promote

- Employee only
- Employee plus spouse
- Employee plus child(ren)
- Family

4.3.3 Entering the web portal

When entering the web portal, the employer user must provide the following information:

- zip code of primary business location
- number of full time (at least 30 hr/wk) employees
- average age of full time employees

4.3.4 Layout of monthly reports

Tabulation of the web portal entry information and any other inquiries of the contractor must enable the MHCC to track use of the site over time showing the number of illustrative searches made by each employer group in the aggregate; by age (8 categories), region (4 categories), size of group (4 categories), age by region and group size, and group size by age and region using conventional web tracking software such as Google Analytics.

4.3.5 Hosting Requirements for VIRTUAL COMPARE

The web portal, which must be operational on a 24/7 basis, will be hosted on the selected offeror's server and must appear as a part of the MHCC's website to the user. To ensure seamless operation and public perception between the various components of the MHCC web site, the contractor must adhere 100% to the MHCC standards for website design contained in Appendix B. These standards include the State of Maryland and Department of Health and Mental Hygiene (DHMH) corporate identity requirements.

4.4 Design Selection and Execution

The MHCC intends to convene a meeting of stakeholders to provide feedback on design(s) proposed by the contractor. The contractor shall attend the meeting, explain the proposed design(s), gather and assimilate the feedback on consumer preferences, and integrate this feedback with MHCC staff input and propose a final design of the web portal.

4.4.1 Application Design Plan

The final design of the web portal must comport with all system and support requirements as defined in this RFP. The contractor shall submit a written application design plan for the selected design to the MHCC prior to the start of development of the web portal. Specifications for the content of the design document are contained in Appendix B, "Requirements for Web Development". The application design plan must include specific detail to enable MHCC staff to determine how future enhancements to the site will be accomplished. The plan shall include, but not be limited to: a flowchart of the design, complete software description(s), table descriptions, proposed code(s), a crosswalk to the content for each component of the Partnership web page and SGM web information, complete descriptions of functional components, and other pertinent information deemed important to the contractor in communicating the application design plan. The design plan shall be approved by MHCC prior to building the web portal. All approved requirements must be followed in constructing the VIRTUAL COMPARE web portal.

Due 45 days from MHCC final design selection.

Due 60 days from date of final MHCC approval of the Application Design Document.

4.6. Review and Validation of the Web Portal Usability testing

The contractor will host a test site for review, validation and usability of content and effective navigation of the web portal.

The test site will be available by password for individuals who are designated by MHCC to provide feedback and recommendations. **The test site will remain operational until all design elements and functions are tested and approved.**

Testing to be comprised of a minimum of five (5) business days for stakeholder testing, 5 business days to make corrections and 5 business days for retesting until approved.

4.6.1. The Contractor shall document all comments received during the test period, categorize into groupings, and assign a disposition to each comment and provide in writing to the MHCC.

4.6.2. The Contractor will make any necessary corrections; provide documentation of each correction, and submit that component of the web portal to a retest and buy-off by the Contract Monitor.

how data is obtained, and its functionality.

4.7.2 The contractor will document in writing each link to another web site the date the link was confirmed, website address, name of site and document name and retain for reference by the MHCC.

4.7.3 Provide full written documentation of the web portal to MHCC staff at installation and at any future time web site components are updated.

Once each month at a minimum, the briefing shall be in person, unless waived by the Project Manager.

Web portal enhancements will be made in consultation with MHCC and selected providers/stakeholders. In addition to the meeting described in 4.4.1 and if directed by the MHCC Contract Monitor, the contractor shall attend designated meetings to brief attendees about changes to the web portal. Such attendance will be considered unit work as specified in Appendix A. Attendance at meetings is estimated to be up to 6 hours, but no guarantee of a minimum number of meeting hours is made.

4.9.3 Satisfaction of Timetable

The contractor shall meet the timeframes specified in the contract.

4.9.4 Key Personnel

Unless substitution is approved, key personnel shall be the same personnel proposed in the Contractor's technical proposal, which will be incorporated into the Contract by reference.

Such identified key personnel shall perform continuously for the duration of the Contract, or such lesser duration as specified in the technical proposal. A letter of commitment from each staff member and contractor assigned to the project should be submitted with the proposal. Key personnel may not be removed by the Contractor from working under this Contract as described in the RFP or the Contractor's technical proposal without the prior written consent of the Contract Monitor.

These items shall not be used by the Contractor for any independent project of the Contractor or publicized by the Contractor without written permission of the MHCC. Subject to applicable State and Federal laws and regulations, the MHCC shall have full and complete rights to reproduce, duplicate, disclose, and otherwise use all such data, information, and reports. At the termination of the Contract, the Contractor shall make available all such data, source code, software, information, and reports to the MHCC within thirty (30) days following termination of the contract or such longer period as approved by the MHCC.

Except as otherwise provided in this subsection, if any material able to be copyrighted or patented is developed by the Contractor in the course of performance of a contract resulting from this RFP, the MHCC and the State of Maryland shall have a royalty-free, nonexclusive, and irrevocable right to reproduce, publish, or otherwise use the work, and authorize others to do so.

4.9.7 Confidentiality

In the course of collecting and analyzing these data, the contractor may have access to insurance rate information that is designated as proprietary and confidential. It is the policy of MHCC that proprietary information must be protected. The contractor shall be bound by all relevant confidentiality requirements in applicable state and federal laws and regulations regarding personal identifying information. The contractor shall be responsible for safeguarding the confidentiality of information by any subcontractor it employs. The importance of such safeguards cannot be overstated. The release of any confidential or proprietary information will be considered a breach of contract and may lead to the termination of the contract.

The successful contractor will be required to sign a MHCC data use agreement (DUA) as part of the contract. The data use agreement limits the ways in which the contractor may use the data and requires the return/destruction of any MHCC-provided data held by the contractor. A MHCC DUA is included in Appendix D.

4.9.8 Contract Years 1 and 2

The contractor may propose a maintenance fee for Years 1 and 2, but the maintenance fee if any, must be individually identified and priced in the Cost Proposal. Any required enhancements in Years 1 and 2 will be initiated on a work order basis using a contract modification. The offeror shall submit a fully loaded fixed price hourly rate for Years 1 and 2.

If there is specific functionality that the offeror feels has not been specified in Section 4.0 or 5.0 of this RFP that would compromise the efficiency and effectiveness of the end product or would enhance the end product, such functionality may be addressed in the submitted proposal but must be identified in bold as a value added service and identified and separately priced from the overall budget in the cost of the proposal.

EVALUATION AND SELECTION PROCEDURE

1.0 EVALUATION COMMITTEE

A committee will conduct the evaluation of proposals. 1.2 Evaluation Process

The Procurement Officer will first determine if all minimum requirements as specified in the RFP, if any, have been met. Any offeror who does not meet minimum requirements will be declared "not responsible." If either determination is made at this point the offeror's proposal will be returned without opening the financial portion. The committee will then evaluate each technical proposal using the evaluation criteria set forth above. As part of this evaluation, the Committee may hold discussions with all qualified or potentially qualified offerors (see Section 1.3 below). Only those offerors whose technical proposals are ultimately deemed reasonably susceptible of being selected for award and who are determined "responsible" will be considered "qualified offerors." Accordingly, if the committee, with the concurrence of the Procurement Officer, determines at any time that an offeror is not reasonably susceptible of being selected for award, or the Procurement Officer determines an offeror not to be responsible, that offeror will be notified and the financial proposal returned unopened if possible.

Following the completion of the technical evaluation of all offerors, including any discussions, the committee will rank each qualified offeror's technical proposal. Unless there is a separate evaluation team to review financial proposals, the financial proposal of each qualified offeror will then be distributed to the committee. The committee may enter into discussions concerning the qualified proposals. Unless already evaluated by the financial team, at this point the committee will rank each offeror's financial proposal from lowest to highest cost to the State. Then, if it is determined to be in the best interest of the State, the Procurement Officer may invite offerors to make final revisions to their technical and/or financial proposals through submission of a Best and Final Offer (See Part III, Section 1.4).

The committee will recommend the offeror whose overall proposal provides the most advantageous offer to the State considering price and the evaluation criteria set forth in the RFP.

In the case of multiple awards the next advantageous, and the next after that up to the number stated in Part I, Section 1.0, will also be recommended. In arriving at this recommendation, the technical proposal will be afforded more weight than the financial proposal. If, however, the technical ranking is essentially equal for two or more offerors, the cost as described in the financial proposal may become the primary determinant of award, at the discretion of the evaluation team.

As permitted by COMAR 21.05.03.03A (6), the Procurement Officer and agency head may accept or decline any or all recommendations from the committee. Nevertheless, in each case, the criteria set forth in Part III, Section 1.1 will govern decisions.

The MHCC will notify all offerors of the outcome of the solicitation. If an MBE subcontracting goal was established for this solicitation, the notification will include instructions and the deadline for the recommended offeror to submit the remaining MBE documentation: *Outreach Efforts Compliance Statement (MBE Attachment C)* and *MBE Subcontractor Project Participation Statement (MBE Attachment D)*. Once all contract approvals have been obtained, notice of award of the contract will be published by the MHCC in the Maryland eMM and DHMH websites.

1.3 Discussions

The Evaluation Committee may enter into discussions with qualified or potentially qualified offerors as set forth in COMAR 21.05.03.03.C. Discussions, however, need not occur (See COMAR 21.05.03.02.A (4)). Offerors may be asked to participate in face-to-face discussions with the committee or other State representatives concerning either or both their technical or financial proposals. Discussions may also be conducted via teleconference or may take the form of questions to be answered by the offerors and conducted by mail, e-mail, or facsimile transmission at the discretion of the MHCC. The Executive Director of the MHCC may also enter into ex-parte discussions with the offerors for the purpose of gaining insight beyond the scope of the evaluation team prior to acceptance or decline of the evaluation team recommendation.

1.4 Best and Final Offers

When it is deemed in the best interest of the State, the Procurement Officer may permit qualified offerors to revise either their initial technical or initial financial proposal or both initial proposals by submitting a Best and Final Offer (BAFO). The Procurement Officer shall notify each qualified offeror of the scope of the requested BAFO, and shall establish a date and time for the offeror's submission. The Procurement Officer may require more than one series of discussions and BAFOs for either or both proposals if the agency head or designee makes a determination that it is in the State's best interest to conduct additional discussions or change the MHCC's requirements and require another submission of a BAFO. If more than one BAFO is requested, an offeror's immediate previous offer shall be construed as its best and final offer unless the offeror submits a timely notice of withdrawal or another BAFO. The Procurement Officer may consult with and seek the recommendation of the Evaluation Committee during the best and final offer process.

1.5 Debriefing of Unsuccessful Offerors

Unsuccessful offerors shall be debriefed upon their written request to the Procurement Officer. The MHCC shall honor requests for debriefings at the earliest permissible time.

1.6 Protests

The State of Maryland provides formal procedures for any offeror to protest the award, or the proposed award, of a contract. All protests must be filed in accordance with Md. Code Ann., St. Fin. & Proc. §15-215 through §15-223 and with COMAR 21.10.02.

PART IV

GENERAL INFORMATION AND INSTRUCTIONS

1.0 PROPOSAL INFORMATION

1.1 Pre-proposal Conference (See Key Information Summary Sheet for location, time, etc.)

While attendance at the pre-proposal conference is not mandatory, all interested offerors are encouraged to attend in order to be better able to prepare an acceptable proposal.

In order for the MHCC to prepare for this conference, prospective attendees are requested to email Sharon Wiggins at swiggins@mhcc.state.md.us no later than Friday, December 11, 2009 to provide notice of attendance, as well as to provide an acknowledgement of receipt of the RFP.

Any individual interested in attending the pre-proposal conference who is in need of an accommodation due to his/her disability should contact the Issuing Office a minimum of five working days prior to the conference to request the necessary accommodation.

1.2 Questions and Inquiries

Questions are to be submitted in writing to Sharon Wiggins in advance of the pre-proposal conference. As practical and appropriate, the answers to these pre-submitted questions will be provided at the pre-proposal conference. Additionally, questions, both oral and written, will be accepted from the prospective offerors attending the pre-proposal conference and will be answered at this conference or in a subsequent transmittal.

. Questions that have not been previously answered and that are deemed to be substantive in nature will be answered only in writing, with both the question(s) and answer(s) being distributed to all persons known by the Issuing Office to have obtained the RFP.

Should a potential offeror identify alleged ambiguities in the specifications or contract provisions included in this RFP, or should there be doubt as to the meaning or intent of any section or subsection herein, the potential offeror must request clarification from Sharon Wiggins prior to the proposal due date. Failure to do so may prevent consideration of a future protest. (See COMAR 21.10.02.03).

1.3 RFP Revisions

If it becomes necessary to revise any part of this RFP, addenda will be provided to all persons who are known by the Procurement Officer to have received the RFP. Acknowledgement of the receipt of all amendments, addenda, and changes issued shall be required from all persons receiving the RFP. Failure to acknowledge receipt of addenda will not excuse any failure to comply with the contents of the addenda.

1.4 Confidentiality of Proposals

The copy marked "PIA" of any proposal submitted in response to this RFP must identify all parts of the technical and financial proposal that the offeror deems to contain trade secrets or information of a confidential and/or proprietary nature. (See Part II, section 1.1, A) This copy must also include a statement by the offeror regarding the rationale for the parts so identified. Compliance with this requirement is set forth in Part IV, Section 2.14, #2. Note that a blanket statement by an offeror that its entire proposal is confidential or proprietary is unacceptable.

1.5 Duration of Offer

A proposal submitted in response to this solicitation is binding upon the offeror and is considered irrevocable for a minimum of 120 days following the closing date for receipt of initial proposals or the closing date for receipt of a best and final offer, if any. This period may be extended by written mutual agreement between the offeror and the State.

1.6 Modifications or Withdrawals

Proposals may be modified or withdrawn by written notice to the Issuing Office prior to the closing date/deadline for receiving proposals. A facsimile transmission or telegram is also acceptable for this purpose; however, offerors are advised to document the exact date/time of transmission. A printed fax confirmation sheet is sufficient or, in the case of a telegram, a written confirmation from the telegraph office showing the date/time that the original message was received from the offeror at the telegraph office.

1.7 Late Actions

A proposal, request to withdraw a proposal, or a modification to a proposal is late, if the Issuing Office does not receive it by the closing date and time at the place designated for receipt of proposals (See Key Information Summary Sheet). A late proposal, late request for withdrawal or late modification will not be considered, except under the following circumstances:

- A. When a late proposal is received before contract award and the proposal, the modification, or withdrawal would have been timely but for the action or inaction of State personnel directing the procurement activity or by the action or inaction of their employees.
- B. A late modification of a successful proposal, which makes its terms more favorable to the State, shall be considered at any time it is received and may be accepted at the sole discretion of the State. (See COMAR 21.05.02.10)

1.8 Rights of Procurement Officer

The Procurement Officer reserves the right to cancel this RFP, in whole or in part, to reject any or all proposals, to waive minor irregularities in proposals, and/or to allow the offeror to correct a minor irregularity if the best interest of the State will be served by so doing. Additionally, the Procurement Officer, at his/her discretion, may negotiate with all qualified (or potentially qualified) offerors in an effort to serve the best interests of the State of Maryland.

1.9 Incurred Expenses

The State of Maryland is not responsible for any expenses incurred by the offeror in preparing and submitting a proposal in response to this RFP.

1.10 Multiple Proposals

An offeror **may not** submit multiple proposals in response to this solicitation.

1.11 Alternate Proposals

An offeror **may not** submit an alternate proposal in response to this RFP except as defined in the RFP.

Accordingly, if there is any item, including any of the standard contract provisions (See Part IV, Section 2.14 below), with which the offeror cannot or will not comply, any exception(s) must be clearly noted and explained. Offerors are warned, however, that exception(s) may be unacceptable to the MHCC and may cause an offeror to be deemed not responsible or not reasonably susceptible of being selected for award.

1.12 Corporate Registration/Verification of Tax Payment

All corporations doing business in Maryland are required by law to be registered with the State of Maryland's, Department of Assessments and Taxation, and Department of Labor, Licensing and Regulation. Corporations that are not incorporated within the State of Maryland are required to have a resident agent. The resident agent must be either an individual (not the corporation itself) with an address within the boundaries of Maryland or a corporation that represents other corporations as a resident agent. Further, both corporations and individuals must verify that they carry no tax liability by contacting the Comptroller's Office.

The successful offeror shall be responsible for ensuring that all subcontractors meet these requirements, and further, that the contractor and all subcontractors shall meet these requirements for the duration of the contract, including option years.

Any potential offeror who has questions concerning this requirement is advised to contact the Department of Assessments and Taxation, at (410) 767-1330. It is strongly recommended that potential offerors and subcontractors be completely registered prior to the due date for receipt of proposals. Failure to register may result in an offeror's proposal being deemed unacceptable.

1.13 Reserved

This subsection has been left intentionally blank.

1.14 Delivery/Handling of Proposals

Offerors may either mail or hand-deliver proposals. Hand-delivery includes delivery by commercial carrier. For any type of direct (non-mail) delivery, offerors are advised to secure a dated, signed, and time-stamped (or otherwise indicated) receipt of delivery. (See Part VI, Appendix E, "Standard Addendum for the Means of Delivering Bids and Proposals.")

Proposals will not be opened publicly, but will be opened in the presence of at least two State employees. After the established due date, a Register of Proposals will be prepared that identifies each offeror. The register of proposals will be open to inspection only after the procurement officer makes a determination recommending the award of the contract.

Proposals and modifications will be shown only to State employees, members of the Evaluation Committee, or other persons, deemed by the MHCC to have a legitimate interest in them.

1.16 MBE Requirements

Any action on the part of the MHCC, or dispute of action by the contractor, shall be in accordance with the provisions of Md. Code Ann. 2.13 Reserved

2.14. Standard Contract Clauses

Both parties agree that the following standard contract provisions are hereby incorporated into and made an integral part of this RFP and resulting contract(s), if any.

1. FINANCIAL DISCLOSURE

The Contractor shall comply with the provisions of Section 13-221 of the State Finance and Procurement Article of the Annotated Code of Maryland, which requires that every business that enters into contracts, leases, or other agreements with the State of Maryland or its agencies during a calendar year under which the business is to receive in the aggregate \$100,000 or more, shall, within 30 days of the time when the aggregate value of these contracts, leases or other agreements reaches \$100,000, file with the Secretary of State of Maryland certain specified information to include disclosure of beneficial ownership of the business.

The justification in support of non-disclosure must accompany the PIA copy of the proposal. Upon request for information from a third party, the Procurement Officer is required to make an independent determination as to whether the information may or may not be disclosed. A blanket statement by an offeror that its entire proposal is confidential or proprietary is unacceptable.

3. APPROVALS

This contract may be subject to approval by the Office of the Attorney General, the Maryland Department of Budget and Management, and the Board of Public Works.

4. MULTI-YEAR CONTRACTS

If the General Assembly fails to appropriate funds, or if funds are not otherwise made available for continued performance of the contract for any fiscal period of the contract succeeding the first fiscal period, the contract shall be automatically cancelled as of the beginning of the fiscal year for which funds were not appropriated or otherwise made available; provided, however, that this will not affect either the MHCC's rights or the Contractor's rights under any other termination clause in the contract. The effect of termination of the contract hereunder will be to discharge both the Contractor and the MHCC from future performance of the contract, but not from their rights and obligations existing at the time of termination. The Contractor shall be reimbursed for the reasonable value of any non-recurring costs incurred, but not amortized in the price of the Contract. The State shall notify the Contractor as soon as it has knowledge that funds may not be available for the continuation of this Contract for each succeeding fiscal period beyond the first.

5. MODIFICATION OF CONTRACT - GENERAL

This contract may be amended as the MHCC and the Contractor mutually agree in writing (subject to any necessary approvals of the Office of the Attorney General, Department of Budget and Management and, in certain cases, the Board of Public Works). No amendment may change significantly the scope of the original solicitation or, if none, the original contract. An amendment to this contract does not alter the other terms of the contract, except to the extent necessary to make them consistent with the amendment. This contract may not be amended to provide salary and wage increases for the Contractor's employees with the intention of making these increases consistent with salary and wage increases given to employees of the State except as provided in Title 10, Section 10-905 of the Health-General Article, Annotated Code of Maryland.

6. MODIFICATION OF CONTRACT - SALARY INCREASES AND EMERGENCIES

Subject to the approval of the Department of Budget and Management, the Department shall have the ability to supplement this contract for:

If the contractor fails to properly perform its obligations under the contract, the State may correct any deficiencies at the contractor's expense.

If the Contractor fails to fulfill its obligations under this contract properly and on time, or otherwise violates any provision of the Contract, the MHCC may terminate the contract by written notice to the Contractor. Notwithstanding any other provisions of the contract documents, the State shall have no liability to the contractor under the circumstances described in this paragraph.

The State has no obligation to provide legal counsel or legal defense to the Contractor or its sub-contractors in the event that a suit, claim or action of any character is brought by any person or persons not party to the contract against the Contractor or its sub-contractors as a result of or relating to the Contractor's obligations under this contract.

APPENDIX B

MHCC REQUIREMENTS FOR WEBSITE DEVELOPMENT

General Requirements

MHCC adheres to Department of Information Technology data security standards that are described at <http://doit.maryland.gov/>. MHCC conforms to State of Maryland branding conventions described at <http://doit.maryland.gov/WebCom/Pages/BrandingGuidelines.aspx>.

All web development must be done using VB.NET in Microsoft Visual Studio and must be designed to be fully accessible to non-visual users (see *accessibility requirements*). The Web server environment is Microsoft Windows Server 2003 R2, IIS V6, .NET V3, using Microsoft SQL Server 2005.

All applications will be installed on MHCC servers. All software, web application design and database structures must be approved by MHCC prior to development. Deliverables include installation and testing to be completed on the MHCC server at least 2 weeks prior to being live on the website.

The highest priority of the development is to design the application so that data updates and modifications or additions to the application can occur in a straightforward and simple manner by the staff of the Commission. The following should be met in the application design:

1. When data updates are needed, a simple replacement of the SQL tables should be all that is necessary for the application to run.
2. When modifications are needed to the language on the web pages, the amount of information presented, or addition of new pages, these can be easily integrated into the existing application by Commission staff.

Resumes, a letter of commitment, references and samples of similar work done within the past year must be provided from web application staff with the bid. If the application development is subcontracted, the same items are required for any subcontractor staff.

Accessibility Requirements

Maryland law requires that all state websites be accessible to non-visual users. COMAR 17.06.02 requires that Maryland state government agencies provide information technology (IT) that is non-visually accessible. IT includes web sites, which are a primary means for the public to gain information about and access to services from the state. This law is compliant with federal standards in Section 508B which is an amendment to the Workforce Rehabilitation Act of 1973, requiring that all electronic information developed or purchased by the federal government be made accessible to people with disabilities.

Any use of java scripting, AJAX or any other type of scripting or code which does not accommodate non-visual access to the application will not be accepted. The selected offeror is expected to be familiar with accessibility law and to be able to develop web applications accordingly.

Application Testing Requirements

1. All software applications shall be thoroughly tested before delivery. The selected offeror shall document the tests that were conducted. The testing shall be appropriate to the application developed. Applications should be tested using real data which can be obtained from MHCC.

2. Applications will be tested thoroughly on the MHCC server before going live and testing will be complete at least 2 weeks prior to production.

Deliverables

The selected offeror shall provide MHCC with an application design document prior to the start of development which will include the following:

- Flow chart of the application
- Description of how the application will be coded
- Description of how ADA compliance will be addressed
- Preliminary structure of the SQL tables used
- Implementation schedule

The final application design shall provide the following:

- Electronic copy of data dictionary including data source, field names, labels, type, length, valid value range, whether missing values are valid. If Access or SQL database used, then need same info for each table.
- Help screens
- Flow chart of the application including decision-making points and screen shots with the field names noted
- Documentation of database tables and views with keys identified
- An electronic copy of all developed software and web pages
- Documentation of any data cleaning and/or processing procedures
- Documentation of the data update process

MARYLAND HEALTH CARE COMMISSION
DISCLOSURE OF DATA**

This is an agreement between the _____, hereafter "Contractor," and the Maryland Health Care Commission (MHCC). It is for the purpose of ensuring the confidentiality, integrity and security of data maintained in the MHCC system of records while allowing for a partial, restricted disclosure of enumerated information and/or records to the Contractor, subject to conditions.

Background: _____ will use the Maryland _____ under work defined in Contract MHCC 10-001 and the supporting materials, from _____ 20__ through _____ 20__.

Contractor is bound by the terms of its Contract in its use of the data requested. At the conclusion of this agreement or on the completion of work the Contractor will return all data files, including analysis files developed for work under the contract or certify to MHCC that all data has been removed from the Contractor's system and that all back-up files have been destroyed by the Contractor.
2. **Conditions Establishing Safeguards for Protection of Data Confidentiality.** The Contractor warrants that all patient-specific information will be maintained on a password-protected computer and in a locked office. No patient-specific information will be disclosed to any person or entity outside of the parties stated under the contract and in supporting documentation. The terms of the contract are express representations, which the Contractor agrees it will perform and are included among its obligations under this Agreement. The Contractor shall not disclose, release, reveal, show, sell, lease, loan, or otherwise grant access to the data covered by this agreement except as expressly authorized under the terms of the contract. Within the Contractor's organization, access to the data shall be limited to the minimum number of individuals necessary to achieve the purpose and access shall be granted only on a need-to-know basis.
3. **Breach of Agreement.** Any unauthorized use of the data provided by virtue of this agreement shall constitute a breach of the agreement. Any breach of security or unauthorized disclosure shall constitute a breach of this agreement. Any violation of state or federal law with respect to disclosure of this data shall constitute a breach of this agreement. Notwithstanding the breaches specifically enumerated above, any other failure by the Contractor to comply with the terms and obligations of this Agreement may constitute a

breach of the agreement. Any alleged failure of the MHCC to immediately claim or act upon a breach does not constitute a waiver of a breach.

4. **Consequences upon Breach of Agreement.** In the event that MHCC, in its sole discretion, has a reasonable belief that the Contractor is in breach of this agreement, it may choose among the following options: a) to investigate the matter, including on-site inspection for which the Contractor shall provide access; b) to resolve the dispute by a plan of correction or other alternative; or c) to declare a breach and demand the return of any and all data released under this agreement and to provide no further data.
5. **Other Remedies.** Notwithstanding and in addition to the special provisions referenced in paragraph 4 above, MHCC may exercise any and all legal, equitable, and criminal referral remedies in the event of a breach of this agreement. In the event that MHCC succeeds in a court action to invoke injunctive relief for a violation of this agreement, the Contractor shall pay reasonable attorney's fees and costs to MHCC. The Contractor agrees to indemnify and hold harmless MHCC for any harm to third parties resulting from any breach by the Contractor of the terms of this agreement and to cooperate with the MHCC in its defense of any third party claim involving the Contractor's activities under this agreement.
6. **Rights in Data.** The parties agree that MHCC retains all ownership rights to the data files referenced by this agreement and that the Contractor does not obtain any right, title or interest in the data furnished by MHCC. The Contractor agrees to provide a copy of its study findings to MHCC at the time that it is published.
7. **Modification.** The terms of this agreement may only be changed by a written modification to this agreement, or by the parties adopting a new agreement.
8. **Jurisdiction.** The terms of this agreement shall be governed by the laws of Maryland and the Contractor acknowledges doing business in Maryland and agrees to submit to the jurisdiction of the courts of Maryland in the event of an alleged breach of this agreement.
9. **Custodian.** The following named individual is designated as "Custodian" of the files on behalf of the Contractor and will be personally responsible for the observance of all Conditions of Use, for the protection of confidentiality and security of the data, and for other obligations under this agreement.
10. **Data Management Plan.** The MHCC accepts the data management plan provided by the Contractor. The Contractor agrees to follow the processes described in the plan. Violation of the data management plan shall permit MHCC, at its sole discretion, to exercise remedies described in paragraph 4 and paragraph 5 of this Agreement.

MARYLAND DEPARTMENT OF HEALTH AND MENTAL HYGIENE Standard Addendum for the Means of Delivering Bids or Proposals

Any bid or proposal due to any unit of the Maryland Department of Health and Mental Hygiene shall be delivered/transmitted as described in this addendum. The failure of any bidder or offeror to follow these instructions may result in its bid or offer not being received by the due time and date, which will result in the rejection of that bid or offer.

There are three acceptable means of delivering/transmitting a bid or offer:

1. The United States Postal Service;
2. Hand delivery by the bidder/offeror itself; and
3. Hand delivery by a commercial delivery/courier company acting as an agent of the bidder/offeror.

For U. S. Postal Service Deliveries

For U.S. Postal Service deliveries, any bid or proposal which has been received at the appropriate mailroom or typical place of mail receipt for the respective procuring unit by the time and date listed in the RFP or specifications will be deemed to be timely.

If a vendor chooses to use the United States Postal Service for delivery, the Department recommends that it use Express Mail, Priority Mail, or Certified Mail only.

These are the only forms of U.S. Postal Delivery for which both the date and time of receipt can be verified by the Department. A vendor using first class mail will, therefore, not be able to prove a timely delivery at the mailroom. It may take several days for an item sent by first class mail to make its way by normal internal mail pickup to a procuring unit's bid box.

For Hand Deliveries by Vendors and Deliveries By Commercial Courier Services

These deliveries must be delivered directly to the room or location specified in the RFP or solicitation and placed in the designated bid box. A bidder who uses a commercial courier service must take appropriate action to ensure that the courier actually delivers the bid/offer to the specified location and not to the Department's mailroom or loading dock. The bid/offer will not be deemed to have been received until it is placed in the designated bid box.

For any type of hand delivery, the vendor or its commercial courier services should request a signed receipt from a procuring unit employee which notes the title of the procurement, the name of the vendor, and the time and date of receipt at the bid box.

Identifying Information

All envelopes containing bids or offers, no matter how transmitted, must contain this information prominently displayed:

- either "Sealed Bid" or "Sealed Proposal," as appropriate;
- the exact title of the bid or proposal as noted in the RFP or specifications;
- the due time and date; and
- the name of the bidder/offeror.

Questions on any of these requirements should be directed to the MHCC contact person identified in the RFP at (410) 764-3329.

BID/PROPOSAL AFFIDAVIT

A. AUTHORIZED REPRESENTATIVE

I HEREBY AFFIRM THAT:

I am the (title) _____ and the duly authorized representative of (business) _____ and that I possess the legal authority to make this Affidavit on behalf of myself and the business for which I am acting.

B. CERTIFICATION REGARDING COMMERCIAL NONDISCRIMINATION

The undersigned bidder hereby certifies and agrees that the following information is correct: In preparing its bid on this project, the bidder has considered all proposals submitted from qualified, potential subcontractors and suppliers, and has not engaged in “discrimination” as defined in §19-103 of the State Finance and Procurement Article of the Annotated Code of Maryland. “Discrimination” means any disadvantage, difference, distinction, or preference in the solicitation, selection, hiring, or commercial treatment of a vendor, subcontractor, or commercial customer on the basis of race, color, religion, ancestry, or national origin, sex, age, marital status, sexual orientation, or on the basis of disability or any otherwise unlawful use of characteristics regarding the vendors, supplier’s or commercial customer’s employees or owners. “Discrimination” also includes retaliating against any person or other entity for reporting any incident of “discrimination”. Without limiting any other provision of the solicitation on this project, it is understood that, if the certification is false, such false certification constitutes grounds for the State to reject the bid submitted by the bidder on this project, and terminate any contract awarded based on the bid. As part of its bid or proposal, the bidder herewith submits a list of all instances within the past 4 years where there has been a final adjudicated determination in a legal or administrative proceeding in the state of Maryland that the bidder discriminated against subcontractors, vendors, suppliers, or commercial customers, and a description of the status or resolution of that determination, including any remedial action taken. An employee is subject to the Living Wage if he/she is at least 18 years old or will turn 18 during the duration of the contract; works at least 13 consecutive weeks on the State Contract and spends at least one-half of the employee's time during any work week on the State Contract. The Living Wage Law does not apply to an employee who works less than thirteen consecutive weeks and full-time on a contract subject to the Living Wage.

 - (2) A Subcontractor who:
 - (A) performs work on a State contract for services valued at less than \$100,000,
 - (B) employs 10 or fewer employees and performs work on a State contract for services valued at less than \$500,000, or

 - (D) Services between a Unit and a County or Baltimore City.

- C. If the Unit responsible for the State contract determines that application of the Living Wage would conflict with any applicable Federal program, the Living Wage does not apply to the contract or program.
- D. A Contractor must not split or subdivide a contract, pay an employee through a third party, or treat an employee as an independent contractor or assign work to employees to avoid the imposition of any of the requirements of Title 18, State Finance and Procurement, Annotated Code of Maryland.
- E. Each Contractor/Subcontractor, subject to the Living Wage Law, shall post in a prominent and easily accessible place at the work site(s) of covered employees a notice of the Living Wage Rates, employee rights under the law, and the name, address, and telephone number of the Commissioner.
- F. The Commissioner of Labor and Industry shall adjust the wage rates by the annual average increase or decrease, if any, in the Consumer Price Index for all urban consumers for the Washington/Baltimore metropolitan area, or any successor index, for the previous calendar year, not later than 90 days after the start of each fiscal year. The Commissioner shall publish any adjustments to the wage rates on the Division of Labor and Industry's Website. An employer subject to the Living Wage Law must comply with the rate requirements during the initial term of the contract and all subsequent renewal periods, including any increases in the wage rate, required by the Commissioner, automatically upon the effective date of the revised wage rate.
- G. A Contractor/Subcontractor who reduces the wages paid to an employee based on the employer's share of the health insurance premium, as provided in §18-103(c), State Finance and Procurement Article, Annotated Code of Maryland, shall not lower an employee's wage rate below the minimum wage as set in §3-413, Labor and Employment Article, Annotated Code of Maryland. A Contractor/Subcontractor who reduces the wages paid to an employee based on the employer's share of health insurance premium shall comply with any record reporting requirements established by the Commissioner of Labor and Industry.
- H. A Contractor/Subcontractor may reduce the wage rates paid under §18-103(a), State Finance and Procurement, Annotated Code of Maryland, by no more than 50 cents of the hourly cost of the employer's contribution to an employee's deferred compensation plan. A Contractor/Subcontractor who reduces the wages paid to an employee based on the employer's contribution to an employee's deferred compensation plan shall not lower the employee's wage rate below the minimum wage as set in §3-413, Labor and Employment Article, Annotated Code of Maryland.
- I. Under Title 18, State and Finance Procurement Article, Annotated Code of Maryland, if the Commissioner determines that the Contractor/Subcontractor violated a provision of this title or regulations of the Commissioner, the Contractor/Subcontractor shall pay restitution to each affected employee, and the State may assess liquidated damages of \$20 per day for each employee paid less than the Living Wage.

Note: Effective March 1, 2005, compliance with COMAR 14.33.02.01-.12 is mandatory for non-exempt units of the Executive Branch. Implementation guidance is not included in this document.

Authority State Finance and Procurement Article, §§3A-302 and 3A-303, Annotated Code of Maryland

Regulation .01 Purpose

- A. The purpose of this chapter is to implement State Finance and Procurement Article, §3A-303(5), Annotated Code of Maryland.
- B. This chapter sets forth uniform nonvisual access standards to be used in the procurement of information technology and the provision of information technology services by or on behalf of agencies.

Regulation .02 Scope

- A. This chapter applies to the procurement of information technology and the provision of information technology services by or on behalf of agencies, except if:
 - (1) The information technology is not available with nonvisual access because the essential elements of the information technology are visual and a nonvisual equivalent cannot be developed; or
 - (2) The cost of modifying the information technology for compatibility with software and hardware for nonvisual access would increase the price of the procurement by more than 5 percent.
- B. This chapter does not apply to information technology that is acquired and used by a contractor:
 - (1) Incidental to performing under a contract with the State or any agency; and
 - (2) To the extent that the information technology is not transferred to the State or any agency as part of the contractor's obligations to perform or incorporated into the deliverables provided to the State or any agency under the contract.
- C. The information technology products or information technology services a contractor develops, procures, maintains, or uses that are not specified as part of a contract with the State or any agency are not required to comply with this chapter.
- D. Except as otherwise required to comply with other law, this chapter may not be construed to require the installation of accessibility-related software or an assistive technology device at a workstation of a State employee who is not an individual with a disability.
- E. Except as otherwise required to comply with the requirements of other law, this chapter may not be construed to require agencies:

(1) To provide access to the public to information at a location other than where the electronic and information technology is ordinarily provided to the public; or Page 3 of 5 *February 8, 2005 Revised April 20, 2009*

(2) To purchase products for access and use by individuals with disabilities at a location other than where the information technology is ordinarily provided to the public.

- F. Section E of this regulation may not be construed to relieve any unit of State government of its obligation to provide information or data under any other requirements of the law.

Regulation .03 Application

- A. Except as provided by Regulation .02B of this chapter, information technology and information technology services procured, used, maintained, developed, and provided by or on behalf of agencies shall be nonvisually accessible in accordance with the standards promulgated in this chapter.
- B. Agencies shall procure information technology and information technology services that comply with the provisions in this chapter when such information technology and information technology services are available in the commercial marketplace or developed in response to a State government solicitation.
- C. When procuring or using commercially available information technology, an agency may not claim that an information technology product as a whole is not commercially available because no product in the marketplace meets all the standards. If products are commercially available that meet some but not all of the standards, the agency shall procure the product that best meets the standards.
- D. This chapter may not be construed to prohibit the use of designs or technologies as alternatives to those prescribed in this chapter if they result in substantially equivalent or greater access for people with visual disabilities.
